Thank you for your interest in Indiana University Bloomington and our graduate programs. These materials are for individuals who are not United States citizens or permanent residents. They provide information about IU and its programs, admission policies, and procedures. They are to be used by persons applying for **graduate** admission for the 2005–2006 academic year and 2005 summer session(s). If you wish to apply for undergraduate study, please visit [www.indiana.edu/~iuadmit](http://www.indiana.edu/~iuadmit) for appropriate application materials.

Founded in 1820, the 1,860-acre Indiana University Bloomington campus is located 50 miles south of Indianapolis in the scenic hills of southern Indiana. It is a residential campus and has been cited as one of the five most beautiful campuses in the United States. Bloomington, a small city of 65,000, combines the charm and safety of a small-town environment with activities and opportunities typical of a much larger city. It has been selected as one of the eight most desirable places to live in the United States, based on economy, personal safety, climate, housing, services, and leisure activities.

If you would like more information about IU or our graduate programs, please visit our Web site at [www.iub.edu](http://www.iub.edu). Many of our programs also offer online versions of this application. We encourage you to use the online application if it is available for the program in which you are interested. However, if you do not have access to the Internet, you may always submit the paper version of this application.

### INDIANA UNIVERSITY HIGHLIGHTS

- The Bloomington campus has 38,903 students (29,768 undergraduates and 9,135 graduates), representing all 50 states and 130 countries. There are more than 3,320 international students on campus.
- The campus libraries, forming part of one of the largest research library systems in the U.S., hold more than 6 million bound volumes and 6.9 million linear feet of manuscripts.
- Other facilities include a variable-energy cyclotron, two observatories, around-the-clock computing facilities, modern broadcasting and journalism facilities, advanced technology for studying musical and literary works, and extensive archaeological, scientific, and geological laboratories. IU also has excellent art studios and printmaking facilities, as well as nationally respected museums in art and anthropology.
- Cultural and recreational opportunities abound at IU. Leading concert artists, professional theatre groups, lecturers, orchestras, and dance troupes perform in Bloomington year-round. The Department of Theatre and Drama presents plays, musicals, and experimental productions throughout the year, and IU's renowned School of Music offers more than 1,000 performances annually, from opera to jazz. State-of-the-art recreational sports facilities, good and diverse restaurants, and easy access to state forests and three nearby lakes offer a welcome change of pace.
- The academic year is divided into two 16-week semesters: the fall semester begins in late August and the spring semester begins in early January. Two intensive eight-week summer sessions are also available, one beginning in May and the other in June.

### UNIVERSITY SERVICES

**Campus Housing** IU Bloomington has one of the largest residence hall systems in the U.S., offering living quarters, meals, and other amenities. Housing for more than 1,250 married students and their families is also available on campus. Residence center information and a housing application accompany the letter of admission.

**Office of International Services** Students from abroad receive advice and assistance with maintaining their visa

status, finances and employment, and other matters of concern from the IU Office of International Services. Its staff advisors are also available to guide students in making a successful adjustment to university and community life.

**The Leo R. Dowling International Center** A popular meeting place for international student organizations, the International Center is also the venue for new student orientation programs, training workshops, departmental seminars, and cultural events that provide enrichment experiences for all IU students. There are more than 40 international student organizations at IU.

**Center for English Language Training (CELT)** You may apply for the IU's Intensive English Program (IEP) separately, without intending to stay at IU for your academic work. Admission to the IEP does not imply that you will be accepted into an IU academic program. The CELT program has a separate application form. If you are interested in the IEP only, please write to CELT at Memorial Hall 313, 1021 E. Third Street, Indiana University, Bloomington, IN 47405-7005, U.S.A. You may also telephone (812) 855-6457, send a fax to (812) 855-5605, or e-mail [iep@indiana.edu](mailto:iep@indiana.edu).

**IU Health Center** The IU Health Center is conveniently located on campus. Enrolled students and their spouses and dependents who are 12 years of age and older may use this center. It is open from 8 a.m. to 4:30 p.m. Monday through Friday when classes are in session. The center provides outpatient medical care, counseling and psychological services, and health education.

**Health Insurance** Students on nonimmigrant visas must have health insurance to cover medical expenses resulting from accidents or illnesses while in the United States. Costs for enrolling in IU's health insurance plan are included in the estimated expenses listed on page 2. Further information about insurance will be included with the admission packet.

**Services for Students with Disabilities** IU provides services and accommodations to students with a wide range of disabilities including physical, psychological and learning disabilities. For more information, contact the Office of Disabled Student Services at Franklin Hall 096, 601 E. Kirkwood Avenue, Indiana University, Bloomington, IN 47405-1223, U.S.A.

## ACADEMIC CREDENTIALS AND DEGREE PLACEMENT

In the U.S., the first four years of university study are spent working toward the **bachelor's degree**. The **master's degree** requires a minimum of one calendar year for completion, but is generally completed in two years. The **doctoral degree** (or doctorate) is the highest degree awarded in the United States. The doctoral program includes course work, a comprehensive examination, original research, and a dissertation. A minimum of three years of study is required beyond the master's level; most students, however, need more than three years to complete the doctorate.

Students entering graduate school often study the same subject that they majored in as undergraduates. However, many programs do not require an undergraduate major in the same field. If you choose a new subject for graduate study, you may be required to complete undergraduate courses in that subject to make up deficiencies. Such courses do not generally count as credit toward the graduate degree.

Degrees and diplomas earned in other countries are not always considered equivalent to those earned in the U.S. IU considers differences in educational systems when reviewing international credentials. For graduate study, you should have completed a minimum of 16 years of primary/secondary/tertiary education and earned a first university degree. Without this background, regardless of the name of your first degree, you can be considered only for admission with advanced standing to IU bachelor's degree programs.

**Eligibility for Graduate Study** You may apply for graduate study during your final year of undergraduate study or after receiving the bachelor's degree or its recognized equivalent. If you studied in one of the following countries, you may apply for admission to graduate study with the credentials noted:

**Australia**—Completion of a four-year bachelor's degree or of the master's qualifying year following a three-year bachelor's.

**Canada**—Completion of a four-year bachelor's degree or of the master's qualifying year following a three-year bachelor's.

**France**—Completion of the *Maîtrise*.

**Germany**—Completion of one half of the required *Hauptstudium* for a *Diplom* following the *Vordiplom*, *Zwischenprüfung*, or other intermediate certificate. If the *Diplom* will not be completed by your desired IU entry date, please include an official statement from your university indicating that half of your required *Hauptstudium* are complete.

**India, Bangladesh, Myanmar (Burma), Nepal, Pakistan, and Sri Lanka**—Completion of a four-year bachelor's degree or of the part one master's degree examinations following a three-year bachelor's.

**Israel**—Completion of a four-year bachelor's degree or of the first year of a master's degree following a three-year bachelor's.

**Philippines**—Completion of a master's degree.

**Russia and the New Independent States**—Completion of a *Diplom* or a *Magistr* requiring five years of study.

**Scotland**—Completion of a first degree requiring a minimum of four years of study.

**Special or Nondegree Status** You may apply as a special student with nondegree status, although not all IU graduate programs accept nondegree students. Acceptance with such status does not imply that you will later be admitted to a degree program. Credits earned as a special or nondegree student do not automatically count toward degree requirements if you are admitted to a degree program at a later date. You may remain in nondegree status no longer than one year and must reapply in full for a degree program.

**Accreditation** IU is accredited by the North Central Association of Colleges and Schools (NCA) through their Commission on Institutions of Higher Education, 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504, U.S.A.; telephone (800) 621-7440.

**Equal Opportunity/Affirmative Action Policy** IU pledges itself to continue its commitment to the achievement of equal opportunity within the university and throughout American society as a whole. In this regard, IU will recruit, hire, promote, educate, and provide services to persons based upon their individual qualifications. IU prohibits discrimination based on arbitrary consideration of such characteristics as age, color, disability, ethnicity, gender, marital status, national origin, race, religion, sexual orientation, or veteran status.

## ESTIMATED EXPENSES

U.S. immigration regulations require that you demonstrate that you have sufficient funds to cover your living and educational expenses for a 12-month period. The amounts listed below include funds for living expenses for 12 months and for mandatory health insurance, but do not include the cost of travel to Bloomington or summer school tuition. These amounts are reviewed annually and are subject to change. For up-to-date estimated expenses, you should visit [www.indiana.edu/~iuadmit/international/index.shtml](http://www.indiana.edu/~iuadmit/international/index.shtml).

An additional \$6,035 should be available for tuition if you intend to study in the summer. A student should have \$9,309 available to support an accompanying spouse or first dependent, as well as \$3,606 per year for each additional dependent. Health and accident insurance is also required for all accompanying dependents and is included in these estimates of additional expenses.

\*Students admitted to the Master of Professional Accountancy (M.P.A.) or Master of Science in Information Systems (M.S.I.S.) Intensive Summer Session will need an additional amount to cover expenses for summer tuition.

The Doctor of Jurisprudence (J.D.) is the professional degree in law and requires three years of study following the bachelor's degree. Students with a foreign law degree may apply for admission to graduate study leading to a master's degree (M.C.L. or LL.M.). Students who have distinguished themselves in a demanding LL.M. program may apply to the Doctor of Juridical Science (S.J.D.) program.

## APPLICATION INFORMATION

- Applications are filed alphabetically under the family name you list on the application form. All your forms, records, and correspondence must use the same name and spelling. Often we cannot match materials with files when papers arrive giving part of, or only the initial of, the family name or the first (given) name. "Nicknames" or adopted Western first names may also cause problems in matching items with applications.
- If you have a U.S. Social Security number or a student number assigned by the IU Center for English Language Training (CELT), list it on the application form. If not, you will be assigned an IU student identification number.
- Bulletins that list course descriptions and degree requirements are available online at [www.indiana.edu/~bulletin](http://www.indiana.edu/~bulletin).
- **All items submitted in support of an application become the property of IU and cannot be returned to you. If you submit incomplete application materials, the processing of your application may be significantly delayed.**

## APPLICATION PROCEDURES

1. **International Application for Admission** Complete, sign, and date the international application form. Return the form by the deadline noted, to International Admissions, 300 N. Jordan Avenue, Bloomington, IN 47405-1106, U.S.A.
2. **Application Fee** Submit a nonrefundable \$60 application fee (\$75 for the Kelley School of Business M.B.A., M.S.I.S. and M.P.A. programs) made payable to "Indiana University." Do not send cash, international reply (postal) coupons, or Euro-cheques. Checks must be drawn on a U.S. bank, or on an international bank with a U.S. affiliate. **The application fee will not be waived.**
3. **Academic Records** Submit official academic records in the original language from **every** postsecondary school you have attended, whether or not you obtained a degree. If the original document is not in English, also provide an official, exact (literal) English translation. Secondary school records are usually not required. **Records must be issued by the registrar or record-keeping official from the institution at which the work was completed.** Notarized copies of

academic records are not acceptable. If you studied in the U.S. or Canada, have official transcripts sent directly to International Admissions. If you studied in one of the countries listed below, submit the following:

**Germany**—Certified copies of course *scheine*, intermediate examination results (if applicable), and intermediate and *diplom* certificates. (See "Eligibility for Graduate Study" p. 2)

**India**—Official copies of the university mark sheets and degree certificates certified by either the issuing university or college. Marks reported or issued by affiliated colleges are not acceptable.

**People's Republic of China**—Academic records and degree certificates in **both** Chinese and English must be certified by the university registrar. Records certified by department heads are not acceptable.

**Russia and the New Independent States**—Certified copies of the *akademicheskaya spravka* or the *prilozheniye k diplomu*, when available, as well as of the *diplom* certificate in English and in the original language.

**Taiwan**—Official academic records must list grades in percentages. If such is not available in English, an official transcript in Chinese listing percentage grades must also be submitted.

4. **Letters of Recommendation** Three letters on letterhead submitted from major professors in your most recent degree program are required. If you are not currently in school, you may include a letter from a past or current employer as one of the three recommendations.
5. **Statement of Purpose** This 300-500 word statement should cover your educational background and your educational objectives while studying at IU.
6. **Evidence of Financial Support** Individuals providing funding for your studies must submit a letter or affidavit of support confirming the amount they intend to provide. They should be sure to include your full name in this correspondence. Official or certified copies of bank statements, or a letter from the bank confirming the availability of these funds, must accompany the letter. Any organizations giving you scholarships or paid study leave should provide an official letter outlining the details of the award in U.S. dollar amounts. While we can process applications for an academic decision without this documentation, we cannot issue a formal admission letter and visa document until we have received acceptable financial documentation.
7. **Resume** Please enclose a resume that completely outlines your activities since you completed secondary school. You should include such things as preparing for university entrance examinations, military experience, work experience, and non-academic studies. Gaps in your resume may slow down the review of your application.
8. **English Language Requirements** If your native language (mother tongue) is not English, you must submit results of the Test of English as a Foreign Language (TOEFL), regardless of where you were educated. You may obtain information about testing dates and places by writing to TOEFL, CN 6154, Princeton, NJ 08541-6154, U.S.A.  
  
To be considered for admission, you must have a TOEFL score of at least 550. Since many graduate programs require TOEFL scores above 550, carefully review the list of major subjects for specific TOEFL requirements. The TOEFL requirements are based upon the paper-based test. Students who have taken the computer-based test (CBT) version of the TOEFL should visit the TOEFL Web site at [www.toefl.org](http://www.toefl.org) for a concordance table listing CBT scores along with corresponding scores for the paper-based test.
9. **Required Special Tests** Refer to the “Available Degree Programs” section to see which additional tests are required. You must submit scores from any required test before an admission decision can be made. Have testing agencies send official score reports to IU. You should also submit copies of test results, if available, with your application to begin the evaluation process. For details on the **GMAT** write to GMAT, Educational Testing Service, P.O. Box 6103, Princeton, NJ 08541, U.S.A. For details on the **GRE** write to GRE, Educational Testing Service, Box 955-R, Princeton, NJ 08541, U.S.A.

**Decision and Notification** Graduate departments and programs usually make admission and financial assistance decisions from mid-January through mid-May for the following academic year. If you are admitted, an admission letter, the appropriate visa eligibility certificate, and other materials will be forwarded to you by airmail in a single envelope. If you are deemed eligible for admission, but have not yet provided satisfactory financial documents, you will receive a letter or e-mail explaining the steps

you need to take to obtain the visa document. If the required information reaches our office very near the desired starting date, your admission may have to be delayed to a later semester. Most admission offers can be extended for up to one year upon written request.

**Confirming Your Acceptance** To reserve a place, some graduate departments require a deposit and/or a direct response to their office by a specific date. If you fail to provide a deposit or confirm your acceptance of admission when requested, your admission place may be given to another student or the admission offer may be delayed to a later semester. It is essential that you notify IU of any change of plans that affect your date of enrollment.

### **CRIMINAL ACTIVITY DISCLOSURE**

IU is committed to maintaining a safe environment for all members of the university community. As part of this commitment, the university requires applicants for IU graduate programs who have been convicted of a felony, or who have engaged in behavior that resulted in injury to any person or to personal property, or who have a history of formal disciplinary action at any of the colleges or universities in which they were previously enrolled, to disclose this information as a mandatory step in the application process. A previous conviction or previous misconduct does not automatically bar admission to the university, but does require review. Information to be submitted includes: the name of the graduate program to which the student is applying, a brief explanation of the relevant incident(s), location (city, state, country) of conviction or previous misconduct, dates and court disposition. This statement must also include a grant of permission to the university for complete access to criminal records, if any. All submitted information must be in English. Translations into English should be notarized and accompanied by the documents in the original language.

Complete information must be sent at the time of application for admission by certified mail or private courier to the Director of Graduate Admissions, University Graduate School, Kirkwood Hall 111, 130 S. Woodlawn Avenue, Indiana University, Bloomington, IN 47405-7104, U.S.A. Applicants are responsible for verifying receipt by the university and for maintaining a copy of the receipt certifying submission.

### **FINANCIAL INFORMATION**

**Fellowships and Associate Instructorships** Some schools and departments offer fellowships and associate instructorships (assistantships) to graduate students. These awards range from \$1,500 to \$18,000, payable over a 10-month period. Assistantships usually include a full fee scholarship, which pays for all but \$500 per semester of your tuition and fees. Awards are limited and usually require service to the department that assigns them. You must meet a very high level of English proficiency, especially for an associate instructor (AI) award. All AIs must have a 550 or higher TOEFL score and must also pass a special English language test in Bloomington before they may begin teaching.

**Employment** IU cannot issue a letter of admission and visa authorization to any international student who lacks sufficient financial resources to meet all expenses for at least one academic year. While you are on campus, employment permission may be granted, but you cannot expect to earn more than a small portion of your yearly expenses through such employment. Further, you cannot use the possibility of such employment to show you have adequate financial resources before a visa is issued. A spouse who is on a student-dependent visa (F-2) cannot work. Note that assistantships and study awards are not considered “employment” according to immigration regulations.
