Conference Papers and Speeches:

1. Law and Technology (Intellectual Property Law).
Presented in January 1979 at the 49th Congress of the Australian and New Zealand Association for the Advancement of Science. (This paper was the subject of editorial comment on page 42 of the 1979 New Zealand Law Journal).
2. Breaches of Confidence by Employees.
Presented in April 1985 in Oxford at the Society of Public Teachers of Law Administrative Law Conference.
3. The Copyrightability of Computer Programs.
Presented in May 1985 at Bath University.
4. Recent Developments in Judicial Review of Administrative Action.
Presented in November 1986 to the newly privatised British Telecom Plc.
5. The Leave Stage in Applications for Judicial Review.
Presented in March 1987 at the Inns of Court (with Lord Justice Glidewell as co-presenter) to the Administrative Law Bar Association (U.K.).

6. The Intellectual Property Implications of Biotechnology.
Presented in October 1987 at Cornell University.
7. Accident Compensation and the Law.
Presented in November 1987 at the University of New Mexico.
8. The Action for Breach of Confidence.
Presented in November 1987 at the University of New Mexico.
9. The Patentability of Higher Organisms.
Presented in February 1988 at the University of Mississippi.
10. New Developments in Intellectual Property Law.
Presented in March 1988 at the University of Texas at Austin.
11. Employees' Disclosures and the Press.
Presented in March 1988 at the University of Texas at Austin.
12. The Farmers' and Experimental Use Exceptions in Patent and
Plant Breeders' Rights Legislation.
Presented in July 1988 at Victoria University of Wellington.
13. Biotechnology: The Environmental Perspective.
Presented in September 1988 in Birmingham at the Annual
Conference of the United Kingdom Environmental Law
Association.
14. New Developments in Biotechnology Law.
Presented in September 1989 at Duke University.
15. Beyond the European Community Treaties.
Presented in August 1992 at the Indiana University Law
School.
16. The Intellectual Property Implications of the Human Genome
Project.
Presented in August 1992 as a public lecture sponsored by
Indiana University's Institute for Advanced Study.

17. Technology Transfer.
Presented in August 1992 to the Technology Transfer Department at Indiana University.
18. Biodiversity, Biotechnology and Intellectual Property.
Presented in March 1994 in Arizona at an international, interdisciplinary conference organised by the US National Energy Law and Policy Institute.
19. Invited discussant at a conference organised by Oxford University on the subject of natural resources and intellectual property. June 1995.
20. European Influences on British Administrative Law.
Presented in July 1995 at St John's College, Cambridge, at the Annual Conference of the Administrative Law Bar Association.
21. A Commentary on Liability for Damages in Public Law.
Commentary on February 1997 at St John's College, Cambridge, at a conference on Liability of Public Authorities.
22. The Legal Implications of Recent Advances In Mammalian Cloning.
Presented before an audience open to the public in September 1997 at Cornell University.
23. Legal and Ethical Aspects of Genetic Engineering.
Presented to a group of Cabinet Ministers, members of the Government's Cabinet Office and departmental civil servants in November 1998 in Cambridge.
24. Patenting Biotechnological Inventions.
Presented in Kobe, Japan, to the Japanese Intellectual Property Institute at a conference organised jointly by the Institute and Oxford University's Intellectual Property Unit in April 1999.
25. Patenting Resources Biotechnology and the Concept of Sustainable Development.

Presented in Bloomington at a Law Faculty conference on sustainable development in 2001.

26. The Intellectual Property Implications of Cloning, Genetic Modification and Stem Cell Research in China.
Presented at Beida University School of Law in Beijing in May 2006.
27. Chinese Biotechnology and the World Trade Organisation.
Presented at a World Trade Organisation Conference at Beida University School of Law in Beijing in May 2006.
28. Strategies for Complex International Litigation Over Biotechnological Inventions.
Presented at a conference organized by the international law firm Kaye Scholer in Shanghai in June 2006.
29. Property and Intellectual Property in Human Genes,
Presented at Case Western Reserve School of Law, April 2007.
30. Latest Developments in Biotech Patenting,
Presented at the Cook Industries Life Sciences Conference, Bloomington, Indiana, November 2008.
31. Intellectual Property Perspectives,
Presented on the BBC World Service's *Forum* broadcast, September 2010.
32. Myriad Genetics and Patents on Genes: The Before and After,
Presented at the Poynter Center, January 2011.
33. A Myriad of Patents, Northwestern University School of Law, March 2011.
34. Informative Genes, Yale Law School, Information Society Project, March 2013.
35. What dignity for the Pig/Human? Global Legal Studies Conference, Maurer School of Law, March 2017.

Seminar Papers:

1. Employment Law and Employees' Disclosures.
Presented to the Cambridge Industrial Law Group.
2. Developments in Intellectual Property Law.
Presented to the Midlands Cambridge Association.
3. Parliament and the Courts.
Presented in Cambridge in 1985 to a conference of Magistrates.
4. In vitro Fertilisation and Recombinant DNA Research.
Presented in May 1987 to the Medical Psychology Group, University of Cambridge.

Research Papers:

Catalogued in the University Library, Victoria University

1. Delegated Legislation with Particular Reference to Economic Regulations.
2. Aspects of Industrial Nuisance.
3. The Law Relating to Superannuation in the Public Sector.
4. Parental Liability.
5. Contractual Capacity.

Written at the request of the Royal Commission on Environmental Pollution (UK)

6. The Legal Implications of Biotechnology in Britain.

Submissions to the House of Lords Select Committee on
Science and Technology

7. Competition Policy and the Contained Use and Deliberate Release (Genetic Engineering) Regulations.
